Gather customer emails by adding a **Newsletter** page section. Emails submitted through this feature will be added to the **Customers** admin for marketing efforts.

Add **Newsletter** to your home page

1. In the theme editor (**Customize**), click **[+] Add section**
2. Locate **Newsletter**
3. Click the section, then **Add**
4. **Save**

## Select a background color

---

Use the **Background color** dropdown to select the desired section style.

## Customize the copy and content

---

Give the section an optional **Heading** and **Text** using the provided fields. This text content can provide more context for what your Newsletter offers—exclusive deals, perks, events, etc.
