Setting up Vogue's product page

Support.pixelunion.net/hc/en-us/articles/360033201053-Setting-up-Vogue-s-product-page

Product pages are key components of any online store. Display your product, convey its value, and make the sale from Vogue's product page.

Product page settings

Show product vendor

Display the vendor label for the selected product by enabling **Show vendor**. Vendor information can be added via the **Products** portion of your Shopify admin.

Enable single product view

By default, the next product in the collection will display when the customer scrolls down the entirely of the product page. To have customers remain on the individual product page instead, select **Enable single product view**.

Show dynamic checkout buttons

To streamline customers to the checkout, enable Show dynamic checkout button.

Select the desired **Sharing** buttons to include these on your product page. These buttons act as quick links for customers to share the product page to popular social media platforms and by email.
