

# Configuring Vogue's sidebar settings

[support.pixelunion.net/hc/en-us/articles/360031376074-Configuring-Vogue-s-sidebar-settings](https://support.pixelunion.net/hc/en-us/articles/360031376074-Configuring-Vogue-s-sidebar-settings)

Vogue's sidebar provides the same features as a traditional header in a vertical column positioned on the left side of the storefront.

Use the theme editor to choose a navigation style option (fixed sidebar or compact header) and adjust the sidebar's footer.

## Choose a navigation style option

Choose an option from the **Navigation style** dropdown.

### Fixed sidebar

With this option selected, the sidebar will remain visible throughout the storefront.

### Compact header

With this option selected, the sidebar will become visible only when the hamburger/triple bar icon is activated in the horizontal header at the top of the storefront.

## Adjust the sidebar's footer

---

The bottom portion of the sidebar features two settings to consider for your storefront.

These settings are separate from the **Footer** section, which is explored in this Help Center article: [Customizing Vogue's footer](#).

## Show payment icons

---

Include icons for the accepted payment forms in the sidebar by enabling **Show payment icons**.

The icons are displayed here are determined by the Shopify admin settings for payment providers.

## Show copyright text and theme attribution

---

Enable this setting to include the copyright and theme credit copy in the sidebar footer. This copy can be customized in the **Edit languages** settings.
