

Vogue sections: Image with rich text

support.pixelunion.net/hc/en-us/articles/360031921453-Vogue-sections-Image-with-rich-text

The **Image with text** section is a versatile and engaging way to present media and messaging together.

Add **Image with rich text** to your home page

1. In the theme editor (**Customize**), click **[+] Add section**
2. Locate **Image with rich text**
3. Click the section, then **Add**
4. **Save**

Choose a section height and color

Select an option from the **Section height** dropdown. The options are:

- **Small**
- **Medium**
- **Large**

Select an option from the **Background color** dropdown. The options are:

- **None**
- **White**
- **Contrast**

Select an image to display

Click **Select image** to locate the desired image.

Choose a focal point for the image

Select an option from the **Image position** dropdown. This will focus the section on a particular area of the image. This is most apparent when using larger section heights.

Add the text portion

Include a **Heading** for the text component using the labeled field.

Use the **Text** field to include the main message. This is a rich text editor (RTE), so it is compatible with italics, bolded text, and links.

Adjust the text alignment

Select an option from the **Text alignment** dropdown to align the text to the **Left, Center,** or **Right**.

Call-to-action button

Include the **Button link** and **Button label** to direct customers to a particular URL using a customized button.

Section layout

Choose options from the **Desktop layout** and **Mobile layout** dropdowns. These determine how the text and image portions are arranged for desktop and mobile views.
