

Vogue sections: Featured product

support.pixelunion.net/hc/en-us/articles/360031913413-Vogue-sections-Featured-product

The **Featured product** section is designed to draw attention to a particular product on your home page.

Add **Featured product** to your home page

1. In the theme editor (**Customize**), click **[+] Add section**
2. Locate **Featured product**
3. Click the section, then **Add**
4. **Save**

Customize section settings

Click the **Featured product** section to open its general settings.

Select section height

Select an option from the **Section height** dropdown. **Image height** is the natural height of the image when you upload it, while **Fullscreen** will expand it so that it fills the entire viewport.

Assign the product to feature

Select the **Product** you want to feature by clicking **Select product**.

Include an alternative product image

By default the section will display the primary image for the product. To display an alternative image, use the **Image override** option. Click **Select image** to locate the image to display.

Image focal point

Adjust the focal point of the image by changing the **Image position**. This setting only has an impact if the **Section height** is set to **Fullscreen**.
